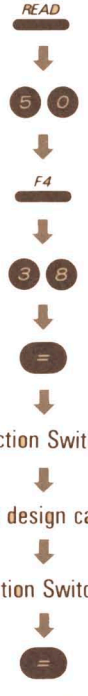
HOW TO USE PE1

1. To read a pattern on design card.

Ex. 50 rows/38 sts.

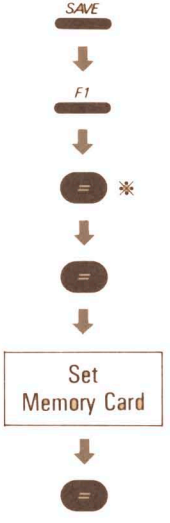


* Always set the pattern width indicator to 60 when using PE1.

2. To knit using PE1 or to confirm a pattern.

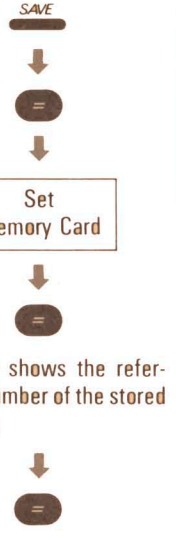
* You can change between the pattern and the row number by pressing = key.

3. To format a Memory Card or to erase all patterns.



※ To abandon the erase, press C key here.

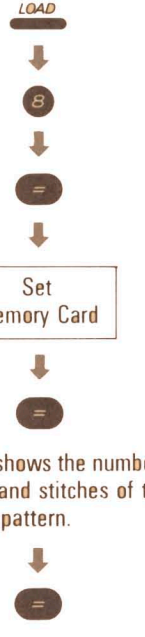
4. To store a pattern into a Memory Card.



* Display shows the reference number of the stored pattern.

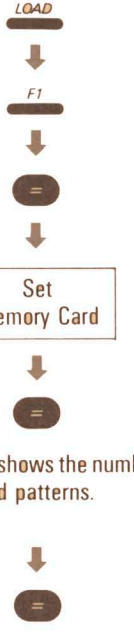
5. To recall a pattern from a Memory Card.

Ex. To recall 8th pattern.



* Display shows the numbers of rows and stitches of the recalled pattern.

6. To see how many patterns are in Memory Card.



* Display shows the number of stored patterns.

*Use C key if...

1. You make a mistake. (You can delete the last entry, one character at a time.)
2. You want to stop PE1 from reading a pattern.
3. PE1 doesn't work whatever key you press.
4. Display doesn't show OK sign when you want to READ, KNIT, SAVE or LOAD.

*The pattern read into PE1 is not erased by pressing C key.

7. To erase the last pattern stored in Memory Card.
